

## App access

### App access

---

To review your app, Google Play must be able to access all parts of it. If access to parts of your app is restricted, for example, because they require login credentials, you must provide instructions on how we can gain access.

Examples of restricted access include, but aren't limited to:

- usernames and passwords
- 2-step verification
- location-based access
- memberships and subscriptions
- any actions required to be carried out on another device

If we can't review your entire app, you may be prevented from releasing updates, or your app may be removed from Google Play.

Reviewers are unable to:

- create accounts or use their own existing accounts to access your app
- use free trials to access your app
- contact you for more information
